

Nextech

Purpose-Built Technology Platform

DERMATOLOGY

Running an efficient and profitable practice has never been more attainable with the simplicity of **one solution for dermatology.**

Provide a White-Glove Experience

- Ensure all aspects of a patient's interaction with your practice is easy and generates prompt responses.
- Enhance patient satisfaction with a centralized experience for faster check-in/out and shorter wait times.
- Delight patients with an emphasis on personalized care and greater attention to detail when you spend less time charting.
- Ensure accurate payments and exceed patient expectations with payments via text, and immediate, hassle-free quotes and packages.

Simplified Charting & Robust Photo Management

- iPad charting keeps your focus on the patient, and customizable templates suit your unique preferences.
- A studio-quality photography solution (integrated with TouchMD) saves costs and streamlines operations by eliminating third-party software.
- Deploy gridline technology for accurate before-and-after comparisons — perfect for social media.

Scale Your Business

- Full-scale marketing functionality to manage leads and keep clients engaged through text, email, and chat.
- Simplify recurring revenue from patients through customizable membership options and beauty banks.
- Maximize the Point of Sale: Quickly collect payments and promote specials from anywhere, anytime.
- Streamline billing, cut down on payment transaction fees, and manage your revenue cycle, including easy ways for patients to secure financing options.
