

Purpose-Built Technology Platform

OPHTHALMOLOGY

Increase practice efficiency and grow your business — all while delivering excellent patient care.

One Comprehensive Ophthalmology Solution

- Experience an industry-leading EHR, built by ophthalmologists for ophthalmologists.
- Save up to 90 minutes per day with the only single-page chart layout on the market.
- Customize ready-built profiles for retina, cataract, glaucoma, pediatrics, and LASIK.
- Increase operational efficiency with a fully integrated practice management system featuring reporting, analytics, integrated payments, and revenue cycle management.

Elevate the Patient Experience

- Deliver a seamless experience with a solution tailored to their needs.
- Increase engagement with two-way communications, patient education tools, & convenient payment methods.
- Simplify patient communication with secure messaging and appointment reminders.
- Reduce visit duration by having patients complete forms prior to an appointment.
- Enhance patient satisfaction with a centralized experience for faster check-in/out & shorter wait times.

Your Partner for Success

- Consult with experts to guide your practice to greater efficiency, higher profitability, & simplified compliance.
- Receive award-winning support from our U.S.-based team of 80+ product experts.
- Eliminate costly IT expenses associated with onsite infrastructure, servers, and maintenance.
- Empower staff to utilize the solution to its fullest with a proven role-based, user certification for EHR and PM software.
