

# EHR & Practice Management

## Vendor Checklist

Selecting an EHR & Practice Management solution is a long-term investment that has a huge impact on your practice's performance and profitability. Make sure you consider all of the following to ensure you make the right choice. The following checklist can assist you in finding the best EHR & Practice Management vendor for your specialty practice:

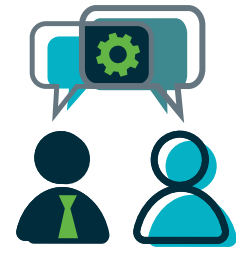

### Industry Experience

There are many unestablished EHR & PM vendors out there. Be sure to choose a vendor with decades of proven experience in the industry.

Nextech has worked with specialty practices for more than

**20**  
years

### Specialty Specific

You need an EHR & PM that is customized to suit the needs of your specialty, not a generic solution that will require your practice to adjust to its limitations. Nextech solutions are specialty-specific and tailored to the unique needs of each practice and provider.

Frequent backups for fast data recovery and a

uptime availability

### Cloud-Based

With a cloud-based EHR & PM, you have the power of a scalable, cost-effective solution that takes the stress out of data management. Nextech offers a robust, secure cloud platform with automated updates and frequent backups for fast data recovery.

### Fully Integrated

With the power of a fully integrated EHR & Practice Management solution, your practice will experience the benefits of a synergistic and unified system that saves time by improving operational efficiency.

### ONC-Certified

Only a properly certified EHR vendor can ensure that your practice gets the most out of its MIPS attestation.

Nextech is a knowledgeable partner providing

**ONC-Certified**

EMR software

### Regulatory Ready

Your EHR should come with features that simplify and streamline regulatory compliance, such as automated MIPS data capture. Nextech's EHR platforms give specialty practices the power to easily achieve compliance while maximizing incentives.

### US-Based Customer Support Team

Avoid the frustration and delays caused by inattentive, outsourced customer support. Nextech maintains a dedicated, responsive, award winning, US-based customer support team.

Nextech received a

for Sales &  
Customer Service

### Professional Services

Ensure you choose a vendor who provides more than just software, one that is a partner in success for your practice and offers additional services to help optimize business performance.

### High Customer Satisfaction & Retention

Customer satisfaction with a EHR & PM platform is often reflected by how many practices have chosen to keep the solution.

Nextech's commitment has allowed us to achieve

**95%**

customer retention rate

### End-to-End Solution

Your EHR & PM should offer a wealth of features that provide full coverage of all your practice's needs, beyond simply clinical documentation, billing and scheduling. Your solution needs everything you need to run the business of your practice, including:

- ✓ Telehealth
- ✓ e-Prescribing
- ✓ Device & Lab Integrations
- ✓ Reporting & Analytics
- ✓ Revenue Cycle Management

- ✓ Patient Portal
- ✓ Marketing
- ✓ Inventory
- ✓ Professional Services & More
