Nextech | Cloud Services & Security

Simple, Smooth, Secure Data Flow

Nextech's Cloud Services & Security provides a trusted, simple, and cost-effective solution that ensures the lifeblood of your practice— **patient data—remains secure and accessible.**

Increase Profitability

- **Eliminate costly IT expenses** associated with on-site infrastructure, servers, and maintenance.
- **Decrease costs** associated with payment processing and patient communication technologies.
- **Determine cost predictability** to scale resources up or down depending on business needs.

Streamline Data Management

- **Access applications and patient records** anytime and anywhere from any device.
- **Automatic software updates** ensure staff have access to the latest features and enhancements.
- **All previous data stored remains intact** in the event of internet loss.

Scalability, Security, and Protection

- **Enable seamless operations** with a scalable cloud-based solution able to support anywhere from 1 to tens of thousands of active users across the country.
- **Encrypted data** both at rest and in transit ensuring a high level of security and HIPAA compliance.
- **Automated backups** multiple times per day to separate locations within the U.S.
- **Electronic protected health information is never stored** on computers or on-site servers.
- **All patches are security tested** and implemented.
