

SOFTWARE BUILT FOR PRACTICE ADMINS

Nextech's technology platform **empowers practice administrators** by automating key processes and streamlining workflows.

Optimize Scheduling & Patient Flow

- Increase patient flow with robust scheduling capabilities and **intuitive check-in/out center** to keep patients moving smoothly through the clinic.
- Reduce staff workload and improve patient satisfaction with **online booking, appointment reminders, and automated eligibility verification.**

Improve Patient Satisfaction & Outcomes

- Keep patients informed and engaged with **electronic communication pre-appointment.**
- Reduce office wait times and streamline check-in with **pre-filled paperwork.**

Boost Practice Profitability

- **Intuitive coding assistance** streamlines the billing process, increases claims accuracy, and maximizes reimbursements and back-office efficiency.
- **Integrated payment system** simplifies the payment experience allowing patients to easily review or pay bills online or via email or text.

Precise Implementation

- **Proven implementation process** designed to minimize disruption and maximize efficiency, making your transition seamless and rewarding.
- Nextech's implementation receives a consistent **96% satisfaction rating** and requires **less than 48 hours of downtime** on average.

"We love the template setup in Nextech's EHR software. We can individualize templates for each of the doctors within the practice."

Nextech just understands what ophthalmologists need in their practices."

Mary Baglin

Office Administrator,
Connecticut Retina Consultants
